GATEWAY
EDUCATION

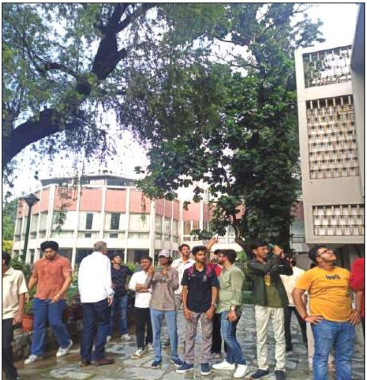
The IBM team, comprising Mr. Rahul Batra and Mr. Gaurav Singh engaged with students and faculty members to highlight the industry's growing demand for skilled professionals in AI, ML, and data analytics. They showcased how IBM's courses can bridge the skill gap and prepare students for exciting career opportunities. The visit aimed to foster industry-academia collaboration and provide GIET students with a competitive edge in the job market. The IBM team also explored potential partnership opportunities with GIET to offer certification programs, training sessions, and guest lectures.

Site Visit of B.Arch. 5th semester Students at Indian International Centre, New Delhi



The buildings of the Centre are located in an ideal environment. Situated in the heart of New Delhi, the Centre is adjacent to the Lodi Gardens overlooking a magnificent landscape of gardens and historic monuments from the sixteenth century. The Centre’s beautiful and low-profile buildings express, as the architect Joseph Allen Stein himself said, the ‘informal or romantic approach, where each function seeks out its own expression.

Site Visit of B.Arch. 5th semester Students at Central Vista

The Central Vista was originally designed with strong underlying geometry, splendid symmetry, and a carefully choreographed processional route (axis, focal point, nodes, and termination). This will help students study and explore design principles, including the organization of space, which will help them elevate their design in architecture studios.

Site Visit of B.Arch. 5th semester Students at India Habitat Centre

The India Habitat Centre (IHC) in Delhi, designed by Joseph Stein, offers a diverse range of public and private activities within its nine-acre campus, including housing, banking, entertainment, and food. It consists of a city within a city, providing affordable green curry, theater, and art, along with comfortable outdoor spaces. The campus integrates various institutions and facilities and is renowned for its architectural excellence, serene environment, and pleasing ambiance created by landscaping and fountains.

ISRO Scientists Lead Workshop on Moon Exploration at GIET: A Thrilling Experience for Students

A team of esteemed scientists from the Indian Space Research Organisation (ISRO) has reached GIET for a most awaited workshop cum seminar on "Moon Exploration by India. The workshop has commenced by Mr. Ashish Aggarwal from Gateway Institute of Engineering and Technology. Many school students from the different cities have came to attend the session. The team has brought lots of counterfeits and equipments for the better understanding of the concepts. The event has coordinated under the guidance of Dr. Amik Garg,Director General, Gateway Education and Dr. Vinay Kumar Singhal, Principal Gateway Institution of Engineering and Technology.

Site Visit of B.Arch. 5th semester Students at Greater Noida (Learner's International School)

GCAD's Students documented the site visit (Learner's International School) at Greater Noida, and Indian Habitat Centre, Indian International Centre, Central Vista, Connaught Place, Hanuman Mandir situated at New Delhi where we were required to explore different aspects of design and case study of the school building which will help them in their design studio to design their project. This case study serves as a great example for the design studio to study and explore the design principles behind the school. It provides insights for developing design principles for the school, taking into consideration both the built and open spaces.

Independence Day Celebrations: A Journey Through History

With the guidance of our Principal, Mr. Prem Kumar Ojha, and Vice Principal, Ms. Rimpy Verma, our Independence Day celebrations on August 10 were a resounding success! Our students from classes 3-5 brought history to life, presenting a powerful skit that showcased the struggles and sacrifices of our freedom fighters, beautifully connecting the story of "Sone Ki Chidiya" to the momentous year of 1947.

Honoring Sacrifices and Celebrating Freedom: Reflecting on the 78th Independence Day

As we mark the 78th Independence Day, we paused to honor and remember the sacrifices made by our freedom fighters and brave soldiers. Their unwavering courage and selfless dedication laid the foundation for the freedoms and rights we enjoy today. This day serves as a poignant reminder of their heroic contributions and the high price of liberty. Let us celebrate their legacy by embracing the values of unity, resilience, and patriotism that they embodied. Their sacrifices have shaped our nation, and it is our duty to ensure their dreams of justice and freedom continue to thrive in the years ahead.

Press Conference Wraps Up Flying Disc's National Training Session

Gateway Conducted the Press Conference on the concluding day of Flying Disc's National Training Session Game-changer Ultimate India.

Overview of Web Technology: An Interactive

Session for 1st Year B.Tech Students

As part of the Induction Program, a technical session on "Web Technology" was conducted for 1st year B.Tech students. Assistant Professor, Mandvi from the Department of Computer Applications (DCA) led the interactive session, which saw enthusiastic participation from the students. The session provided a comprehensive overview of web technology, covering key concepts and applications. Students engaged actively, asking questions and exploring the subject matter in depth. The session aimed to inspire and motivate the young minds to explore the vast possibilities in the field of web technology.

Site visit of B.Arch. 1st Semester Students

Books by the Rishihood Community

Students of Architecture enrolled in the B.Arch Program at GCAD started the journey to Rishihood University, Sonipat. It was a group of 19 energetic students accompanied by two faculty members. The visit was aimed to create emotions in the students when they look at buildings and sites from a fresh perspective which is yet to bloom. The visit to Rishihood University was a captivating memory wherein students walked into a building feeling the energy to be designers of such buildings one day. The interaction with the Site Engineer at a construction site within Rishihood Campus was also conducted where students saw firsthand the basics of building construction and civil engineering. After Rishihood, students arrived at Ar Naveen Dhamija's office located in Sector 12. Students glimpsed and interacted with the principal architect and fellow architects in the office. Afterwards, students went to see the excavation of a residential project designed by Ar Naveen Dhamija.
