

**Diptarshi Dev**  
**Assistant Professor**

Bachelor of Architecture, 2004- 2009  
Chandigarh College of Architecture, Chandigarh

Masters in Architecture (DTS), 2013  
National University of Singapore, Singapore

Born and brought up in Assam, India, Diptarshi Dev graduated as an Architect from Chandigarh College of Architecture, Punjab University, India. He did his Masters in Architecture in Advanced Design Technology and Sustainability from National University of Singapore, Singapore.

Before getting associated with Gateway Group of Institutions, he worked as a project leader and design manager for some of the prominent practices in Delhi. As a Design Manager working on pan India projects, with DDF consultants which is considered a market leader in the government consultancy services, a few of his accomplishments included prestigious projects like IIT Palakad, AIIMS Awantipore and a lot many healthcare and institutional projects being awarded to the firm. His accolades while there include being awarded for motivational leadership and grooming young architects to compete with the best in the market.

Diptarshi has been associated with the Gateway family since 2010 at which time he had been with us for more than a year before moving on to pursue for higher studies. He has a very keen eye for detail and design methodology due to his wide range of international and national exposure. Well versed in the modern technological aspect of architecture, and various modes of design presentation prevalent today worldwide, his knowledge has proven to be a huge asset for budding young architects.
