Monali Wankar is a conservation architect and has accomplished her Masters in Architectural Conservation studies from School of Planning Architecture, New Delhi. Her graduation is from from Visvesvaraya National Institute of Technology, Nagpur. She is a Research Scholar at Department of Architecture and Ekistics at Jamia Millia Islamia, New Delhi and is undertaking her research on the topic Conservation of Built Heritage of Delhi through Corporate Social Responsibility. She has also completed course on Conservation of Built Heritage held by ICCROM in Italy. She has attended Engelsberg Summer School on Classical Heritage with INTBAU held in Sweden.

Before joining GCAD, she was associated with the Shahjahanabad Redevelopment Corporation, a Delhi Government organisation working for revitalisation projects of the Historic City of Delhi. She has also worked with the National Culture Fund, a Government of India organisation for the conservation of tangible and intangible heritage of India. She has worked in several projects in different cities of Punjab, Rajasthan, Uttar Pradesh, Himachal Pradesh, Haryana and Jammu & Kashmir apart from Delhi. She is a member of ICOMOS in the National Scientific Committees, Shared Built Heritage and 20C Modern Heritage. She is a lifetime member with INTACH a non-government organisation working in India for protection of the unprotected heritage of the country. She is associated with Gateway family since 2015 and with her enormous professional exposure she has been crucial in shaping up the budding architects of GCAD.
