

Rajesh Jangra
Assistant Professor

Professional In Model Making

Rajesh has grown up in a Rajasthan based Artisans family. In the early childhood he developed a passion towards model making and started playing with carpentry tools at grandparent's carpentry workshop. After finishing studies ,he joined his elder brother's model making workshop and learned architectural model making work under his supervision. During this period, he had experienced working on the physical model of many famous buildings.

Rajesh is a professional model maker who is associated with GCAD since 2012. Being an expert in his art, he has delivered more than 200 models of various famous buildings like ISKCON temple East of Kailash, CIDCO office Bombay Pearl Academy of Fashion Jaipur and many more. He is been working for renowned architects of India For e.g. A.P Kanvinde, Ranjit Sabiki , Manit Rastogi etc.

With experience being his forte, he has used knowledge and experience to expand. He is also been invited to many architecture colleges of India to conduct workshops on model making. A man with few words, he saves his energy and words towards his work. A highly grounded and dedicated faculty who greets everyone with nothing but a warm smile. Rajesh puts in every effort to make the workshop looks lively and vibrant with models made by students under his supervision, which is always appreciated by GCAD.
