

Dr. Manisha Dabral Malcoti

Associate Professor

Manisha has a PhD in Architecture and over 15 years of experience in the field and academia. With a strong foundation in architectural design, theory, and practice, she has developed a deep understanding and expertise in her field.

Manisha's industry experience spans 12 years, during which she worked with renowned corporations such as NBCC and Skyline. She also led high-end interior projects as a Team Leader in a multinational company, showcasing her expertise in managing complex projects and teams.

Her passion for teaching and research led her to transition into academia, where she taught at reputed colleges in Delhi. Manisha's research on Urban Heat Island received widespread recognition and was published in a leading Delhi newspaper. She has authored numerous research papers in her area of expertise, contributing significantly to the field of architecture.

Beyond her professional pursuits, Manisha is a watercolor enthusiast and a member of the global Urban Sketchers group. She enjoys capturing the essence of her city through sketches, combining her love for art and architecture. This creative outlet allows her to observe and appreciate the urban landscape in new and exciting ways.

Throughout her career, Manisha has demonstrated a commitment to excellence, innovation, and knowledge sharing. Her areas of expertise include urban design, landscape and interior design
