

AUGUST STORIES 2026

Namaste.

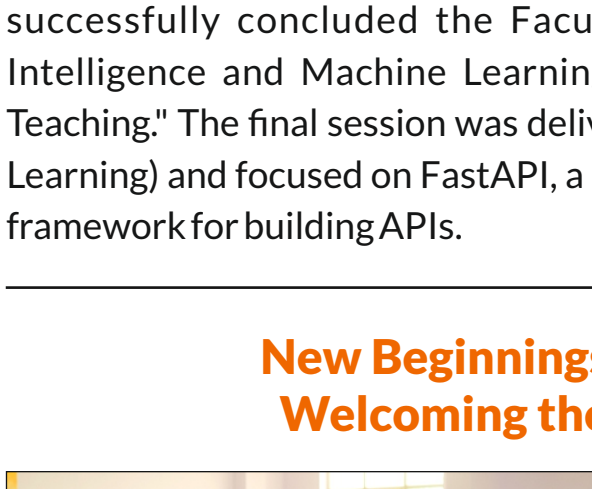

August arrives with a gentle warmth, carrying the fullness of summer into its golden embrace. The days remain long and sunlit, with bright skies stretching endlessly overhead and warm evenings lingering softly beyond sunset. The heat settles across the landscape with a comforting steadiness, while nature flourishes in rich abundance. Trees stand deep in green, gardens glow with vivid blooms, and meadows ripple quietly beneath the lingering summer sun. The air carries the fragrance of flowers, fresh leaves, and rain-kissed earth, often accompanied by the soothing rhythm of distant showers and the lively hum of the season. Mornings feel bright and refreshing, while afternoons invite moments of peaceful relaxation, outdoor exploration, and simple enjoyment. August moves with a calm confidence, balancing the richness of summer with subtle hints of the season beginning to change. It encourages us to slow down, celebrate the beauty around us, and cherish summer in its warm, abundant, and radiant form.

Navankur: Inspiring New Beginnings, Shaping Bright Futures

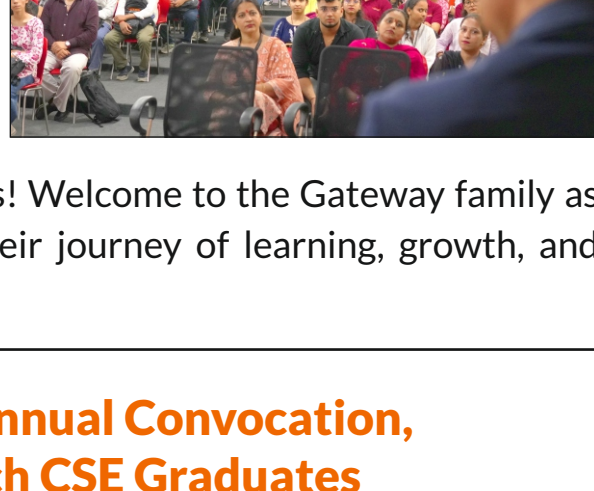

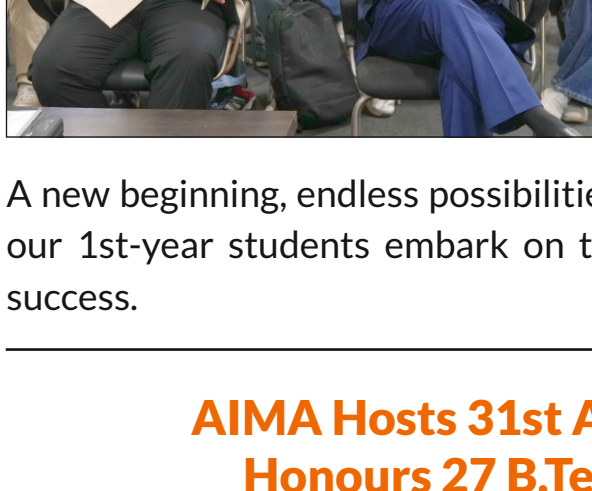

Gateway Institute of Engineering & Technology warmly welcomed the 2026-27 batch through Navankur – Orientation Program (Phase II), inspiring students to begin their academic journey with confidence, curiosity, and purpose.

Empowering Faculty with AI & ML Tools for Research and Teaching

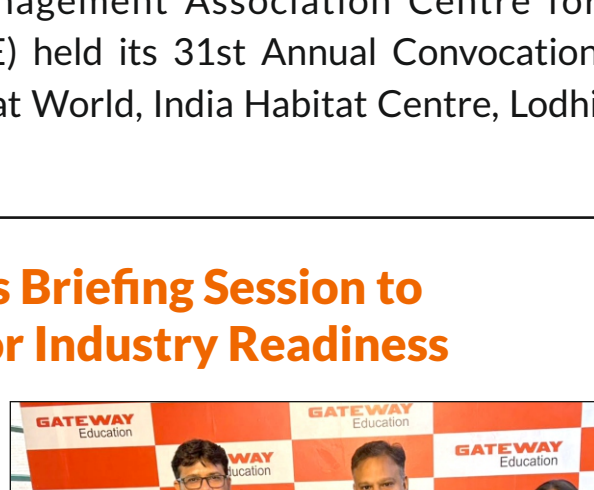

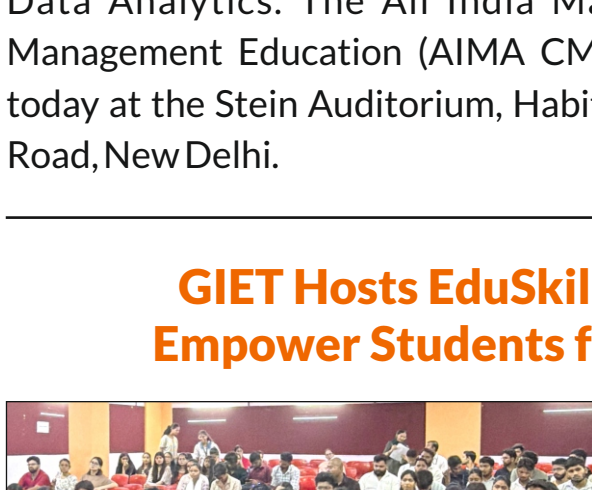

The Department of Computer Science, under the guidance of Dr. Aakash Gupta (Head, Department of Computer Science) and the leadership of Dr. Vishal Jain, Principal, Gateway Institute of Engineering & Technology, successfully concluded the Faculty Training Program on "Artificial Intelligence and Machine Learning Tools for Academic Research and Teaching." The final session was delivered by Mr. Amar Kumar Jha (AI Tech Learning) and focused on FastAPI, a modern and high-performance Python framework for building APIs.

New Beginnings, Bright Futures: Welcoming the 1st-Year Batch

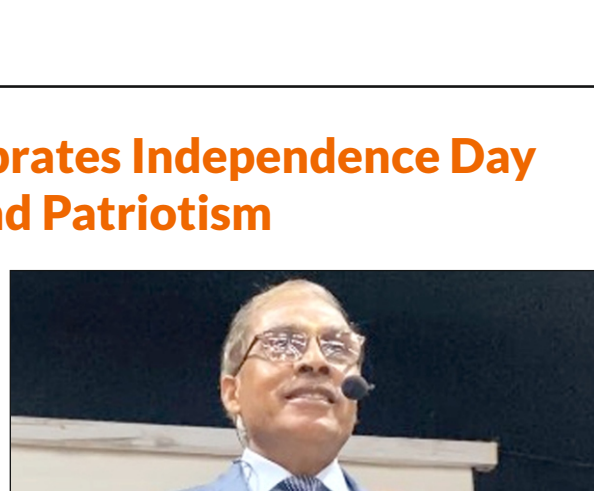

A new beginning, endless possibilities! Welcome to the Gateway family as our 1st-year students embark on their journey of learning, growth, and success.
