

JUNE STORIES 2025

Namaste.

As July arrives, it enters with the boldness of high summer—radiant, full-hearted, and alive with vibrant energy. The world feels expansive, bathed in sun and stirred by warm breezes that carry the scent of ripening fields and open skies. July is a time of fullness, when life stretches to its peak—gardens are lush, fruits begin to swell, and the days shimmer with possibility. It is a month of celebration and continuation, where the seeds we once planted now stand tall, revealing the strength and resilience nurtured over time.

Gateway Institute Celebrates Research Excellence: Students' Work Published Internationally

Gateway Institute of Engineering and Technology Achieves Research Milestone. 10 Students Publish Research Papers in Prestigious International Journals. GIET proudly announces a remarkable academic achievement as 10 of its engineering students have successfully published research papers in reputed international journals. These publications are the outcome of their innovative final-year projects, reflecting the institute's strong focus on research, innovation, and global academic excellence.

Designing the Future: Exhibition by First-Year Architecture Students

Creative Minds at Work | Gateway College of Architecture & Design. Our first-year students showcased their incredible talent through impressive sketches, graphics, and architectural models at a special exhibition held on campus. This display of creativity, skill, and design thinking marks a strong beginning to their architectural journey.

Together for Change: Gateway Hosts Awareness Program with Community Leaders

Gateway Education takes a step towards a healthier, greener future! We were honored to host our respected Gram Sarpanchs and Municipal Councillors for a special awareness program focused on anti-drug addiction and environmental responsibility. Together, we educated our students on the harmful effects of substance abuse and inspired them to take action through tree plantation drives.
